Scrappy 14” finish block, 12 blocks (with two borders), 54” x 68”

Blocks made using 37 different 2 ½” x 40” strips. If you are using a JELLY ROLL of precut strips, be sure to examine that you have enough contrast in your 37 strips.

If you are cutting the 2 ½” strips from yardage, be sure to cut them before class.

18 different dark strips 2 ½” x 40”
1 center color dark strip 2 ½’ x 30” or enough dark scraps to make 12 2 ½” squares.
18 different light strips 2 ½” x 40”

First border – light fabric, 1/2 yard
Second border – dark fabric, 1 yard

From 12 of the 2 ½” dark strips, cut one piece each: 14 ½”, 12 ½”, 6 ½” and 4 ½”

From 6 of the 2 ½” dark strips, cut two pieces 10 ½” and two pieces 8 ½”

From one dark strip (for the centers), cut 12 2 ½” squares or cut 12 scrappy dark 2 ½” squares

From 6 light strips, cut one piece each 12 ½”, 10 ½”, 8 ½”, and 6 ½”

From 6 light strips cut one piece each: 8 ½’ and 6 ½’ and two each: 4 ½” and 2 ½”

From 6 light strips, cut one piece each: 12 ½” and 10 ½”
**Construction of one block:** Following the diagram below, color the pieces the way you want them. One center square is dark. Diagonally one side of the block is dark and the other side is light.

Sew the blocks together using your colored guide above. Press the seams towards the outside as you go from the center out. Another idea to keep the sequence of sewing correct is that you sew onto the most recent one you pressed (the warm one!).

Make a total of 12 blocks. Arrange them in four rows of three blocks each. There are a variety of layout options.

First border is cut at 2”
Second border is cut at 4 ½”
